CBSE Class 6 Mathematics — Examination Paper

Time: 2 Hours | Maximum Marks: 40 | Blueprint: Sections A to E

SECTION A (Multiple Choice Questions - 1 Mark Each)

1. The perimeter of an equilateral triangle of side 9 cm is:
(A) 18 cm (B) 27 cm (C) 36 cm (D) 81 cm

2. Which of the following is a proper fraction?
(A) 7/5 (B) 3/8 (C) 9/4 (D) 11/3

3. The area of a rectangle of length 12 cm and breadth 5 cm is:
(A) 34 cm² (B) 60 cm² (C) 17 cm² (D) 72 cm²

4. Assertion (A): 2/3 and 6/9 are equivalent fractions.
Reason (R): Multiplying numerator and denominator of 2/3 by 3 gives 6/9.
(A) Both A and R are true and R is correct explanation of A.
(B) Both A and R are true but R is not correct explanation.
(C) A is true, R is false.
(D) A is false, R is true.

SECTION B (Very Short Answer Questions - 2 Marks Each)

5. Find the side of the square whose perimeter is 64 cm.

6. Reduce 45/60 to its simplest form.

SECTION C (Short Answer Questions - 3 Marks Each)

7. A rectangular park is 20 m long and 15 m wide. A path 2 m wide is constructed all around inside the park. Find the area of the path.

8. Ramesh had 20 pencils, Sheelu had 50 pencils and Jamaal had 80 pencils. After 4 months, Ramesh used up 10 pencils, Sheelu used up 25 pencils and Jamaal used up 40 pencils. What fraction of pencils did each use up? Check if each has used up an equal fraction.

SECTION D (Long Answer Questions - 5 Marks Each)

9. Five square flower beds each of side 1.2 m are dug on a piece of land 4.8 m long and 4 m wide. What is the area of the remaining part of the land? Also find the cost of turfing the remaining land at Rs 25 per sq meter.

SECTION E (Case Study Based Problem - 4 Marks)

10. **Case Study:** Priya's school has an athletic ground. The ground consists of a central rectangular field of length 80 m and breadth 50 m, surrounded by a running track.
Sub-question (i): What is the perimeter of the central rectangular field? [1 Mark]
Sub-question (ii): What is the area of the central field? [1 Mark]
Sub-question (iii): If grass is to be planted in the field at Rs 15 per sq m, find the total cost of planting grass. [2 Marks]
